PROJECTS / OPEN-SOURCE

SCHOOL MANAGEMENTS | [Live](#) | [Code](#)

Nextjs, React, Nodejs, Typscript, Tailwind CSS, Supabase, Vercel

This project is a school management website built with Next.js, Supabase, and SendGrid. It allows users to add, view, and manage schools with secure authentication and email verification.

E-COMMERCE APP | [Live](#) | [Code](#)

ReactJS, ExpressJS, MongoDB, NodeJS, TailwindCSS

In this app, vendors can manage their inventory by adding, editing, deleting, and viewing items. I developed the frontend using React and Tailwind CSS, built the backend with Express and Node.js, and configured MongoDB for data storage, ensuring a seamless and efficient experience.
